The IDEA requires local education agencies (LEAs) to provide special education services to eligible students who are enrolled by their parents in non-profit non-public schools for the purpose of delivering an elementary and/or secondary education. Each LEA must use a proportionate share of their IDEA funds to provide special education services to non-profit non-public schools and home-schooled students with disabilities. For the purposes of proportionate share requirement, Arizona defines non-public schools as independent (secular, and non-secular) schools, as well as home-school programs.

The meeting will be facilitated by Chad Scott, Special Education Director.
